

October is National Physical Therapy Month

Azer Clinic is happy to announce October is National Physical Therapy Month! We encourage options for an active and healthy lifestyle.

We speak for the best interests of the public in recommending physical therapy by a licensed physical therapist to achieve physical fitness. We encourage members of the community to join together to raise awareness of the importance of preventive health during the month of October, and hoping this effort will bring awareness to our community, and around the country, of healthier and more active lifestyles!
